

LIVE BEFORE YOU DIE

YOUR FOUNDER SCORECARD PROFILE

# The Integrated Performer

*Winning everywhere. Now go further.*

Your 7-day plan from the Founder Scorecard

YOUR PROFILE

# The Integrated Performer

*Your work, your home and your energy are pulling in the same direction. That's rare, and it's a real edge.*

You've done what most driven men never manage. The work is strong, home is solid, and your energy holds up. You're not running from anything.

Edges get tested, though. The big launch, the hard quarter, the new baby, the deal that eats your month. Pressure is when old patterns come back.

So this guide isn't about fixing. It's about protecting what works, and using what you know to help the men around you who haven't figured it out yet.

> *Create a life you never want to retire from.*

*The question now isn't what's broken. It's how far you can take it.*

WHAT'S AT STAKE

# Keeping it this way

*Home is fuel, not drain. Your next edge is keeping it that way when the pressure spikes.*

## When pressure spikes

The first thing to go is presence. Phone at dinner, mind in the deal. It starts small and it compounds.

## Your energy

Right now home refills your tank every night. That's what lets you take bigger risks. Protect it like any other asset in the business.

## Your wins

Your wins land because you have people to share them with. That's what makes the work worth doing.

## Your influence

A lot of the founders around you are winning at work and quietly losing at home. You're proof it doesn't have to be that way.

*Relationships are a performance variable. You've got this one right. Keep it right.*

YOUR 7-DAY PLAN

# One move a day

*This week isn't about fixing anything. It's about protecting what works and making it hold under pressure.*

1

YOUR PROFILE MOVE

Pick one founder you know who's winning at work and quietly losing at home. Ask him how home really is, then just listen.

2

CONNECTION

In a relationship: Pick three nights this week. Phone in another room from the moment you walk in until your partner goes to bed. Ask one real question each night and hear the full answer.

Single: This week, call two people outside work who matter to you. Not a text. Tell each of them one real thing you're dealing with right now.

3

PERFORMANCE

This week: no caffeine after noon and no screens in the last 30 minutes before bed. Rate your energy 1 to 10 each morning, then compare day 1 to day 7.

4

TIME

For three days, write down every task you do. Circle the ones only you can do. By Friday, delegate, automate or delete one of the rest.

5

PURPOSE

This week, finish this sentence and put it where you'll see it every morning: "Everything I'm building is for ___." If you can't finish it, that's your answer.

6

REST AND NOTICE

No new action today. Notice what kept home strong this week, and what tried to pull you away from it. Write down the one habit you'll protect no matter how busy it gets.

7

RETAKE AND COMPARE

Retake the Founder Scorecard and compare your four scores to the first time. Then start the 30-day retake on the next page.

THE 30-DAY RETAKE

# Track the ten that matter

*These are the ten core questions from the Founder Scorecard. Rate each 1 to 5 today, then again in 30 days. The gap is your proof.*

| | | TODAY | 30 DAYS |
|---|---|---|---|
| 1 | I can explain clearly what my success is ultimately for. | | |
| 2 | When I hit a big goal, I feel genuinely fulfilled, not just relieved. | | |
| 3 | My relationship with my partner is strong right now.<br>*Single: My closest relationships are strong right now.* | | |
| 4 | My partner would say I'm fully present when I'm home.<br>*Single: When I'm with people I care about, I'm fully present, not in my phone or in my head about work.* | | |
| 5 | I have at least two people outside work who know what I'm really going through. | | |
| 6 | I wake up with energy most days without relying on caffeine. | | |
| 7 | I can do 2+ hours of deep, focused work most days. | | |
| 8 | I sleep well and wake up rested. | | |
| 9 | I spend most of my week on work only I can do. | | |
| 10 | I feel in control of my calendar. | | |

*Score it honestly. A low number today isn't a verdict. It's your starting line.*
